Dear friends, **HAPPY EASTER.** It is such a pleasure to be alive and be here at this time of our evolution. I start each morning with gratitude for a new day and for a new start and for all the opportunity that is being presented. It is truly a time of creating and expecting miracles. Here in the Dewey/Prescott area we were surprised with a lovely Spring Snowstorm in Feb. It actually was more snow than all winter. Jessie & Giselle had the best time just in the newness of it all. We came out to find a winter wonderland, it was truly like a new beginning for us.

Our first Spring Roses

As we ran thru the wash and played in the snow, it was as if all the possibility we could imagine was available to us. I believe it was a reminder that is true for us each and every day! We had another lovely surprise here at Jellypsy Ranch this Spring. A pair of Great Horned Owls have nested in the Cottonwoods. It has been such a high honor to meet and connect with them. They told me their names were Ahcius (female) and Ohmke (male). They came to remind us of the beginning and the end - the AH and the OHM. AHHHH -the sound of God, of contentment and of joyous creation and OHHM - the sound of gratitude for all that has manifested in your life. I try to tone the sound of AH each morning and OM each evening. It is a powerful and simple meditation practice to utilize. I have re-connected with several old friends recently who have reminded me of things I had forgotten that I have done over the years. I invite you to remember to acknowledge yourself and draw inspiration from your past accomplishments. It helps us to realize we can do whatever we envision. As we move thru each day, putting one foot in front of the other and doing the very best we can with what is being presented, I am grateful for the privilege of being here on mother earth at this time and for the opportunities being presented for us to shine our light and change the world we live in. *Christina & Gang*

MANY NEW CHANGES ARE COMING, AND THEY ARE ALL IN ALIGNMENT WITH YOUR WORK AND ON YOUR PATHWAY. IN TIME, I WILL SHARE WITH YOU NEW COLORS AND THE WISDOM OF MANY DIMENSIONS. WALK (AND play!) **What's new at Jellypsy Ranch? Medicine Wheel & More...**

I began the medicine wheel in the winter and set the posts for the four directions. They are Cottonwood from the land. The wheel follows the Sun Bear Design.

We "extended our pathway" this fall to a complete circle on the property. It is fun to "walk the walk!"

Our "Heart Tree" beginning to bloom

We built our first coldframe for our own "salad garden" & have lots of seeds sprouted (a 1st for me) ready to go in the garden as soon as it is warm enough.

I completed all of the 36 points on the wheel on the Spring Equinox. . Dedication will be at Summer Solstice. Come participate!

**Personal Retreat Getaway.** This program is developing into an "invitation to renew yourself," a private one on one consultation to restore your inner peace and redefine your life purpose. Jellypsy Ranch is a place where someone can come to enjoy the peace and tranquility of the natural surroundings. It is an ideal opportunity if you are in transition or coming thru a loss or trauma and looking for guidance and redirection or just need a break! Come and be nurtured and nourished amidst the quiet, sit in the hot tub, walk the labyrinth, be fed healthy meals and receive emotional support. It is a customized program to walk within, journey to your magic and find that place inside where all the answers already are. Feel free to refer anyone you know who is in need of a place to feel safe to rest and renew. Call for Details 928-300-7709

Jessie & Christina & Giselle  
"A DAY AT THE OFFICE"

This month this section is a little "out of the box" (not in the current "ani-motions" deck). I recently met Wilson thru his foster mom with United Animal Friends when I donated an "Ani-motion" for the WOOF DOWN LUNCH. (see Page 2 article). When I opened the photo to connect with Wilson he immediately connected thru my heart with a huge impact and let me know that he has something important to share & to teach me. The message he has for everyone is that we need to come from love, not only from our heart, but from our heads/minds as well. It is important to have the heart-mind connection open and flowing. When this connection happens, the words that come out of our mouths are always from the heart and can heal many situations.

THEN - Wilson guided me to focus on his eye and create a second "Ani-motion". This is a new process for me. He said that it would be important for me to be able to see and to present things thru the eye of a rescue. WOW!! I am very excited to share that Wilson has inspired a new series "THRU THE EYE OF RESCUE" being presented at UAF's Woof Down Lunch on May 16. These prints I will be part of the raffle that day.
